

CNC Fiber Laser Cutting Machines

Our laser cutting systems deliver unmatched precision and versatility, equipped with advanced machine vision and component ecosystem.

Power Range and High Speed

1.5kW to 12kW | Acceleration: 1-2 G.

High Speed & Accuracy

X and Y Positional Accuracy: $\pm 0.03\text{mm}$.

Configurable Beds

Multiple bed sizes to match production needs.

Advanced Machine Vision

Auto scans materials for ease of work.

KUT Series

SPECIFICATIONS

Width (Range) : 1530mm | 2500mm | 3200mm

Length (Range) : 3200mm | 6500mm | 12500mm | 15000mm

Cutting Head : Bochu | Relfar

Laser Source : MAX Photonics | Raycus | IPG

CNC Controller : CypCut | RuiDa
